

efficiency. synergy. expertise.

“...eTeam believes in partnering itself in the whole process of the projects, which gives them an edge over other consulting organizations. This has been proven by the efforts, sincerity, dedication and hard work of their consultants in mission critical projects...”

— Vice President, Information Systems

Clients face the often herculean task of ramping up high quality delivery teams at a moment's notice, delivering the project on time and on budget, and managing project scope. The projects/budgets risks are further increased due to lack of in-house expertise, costs seepage or quality standards in global delivery models.

Large System Integrators, Mid to Large size end user organizations with significant SAP investments have used eTeam as an "On-demand" SAP specific organization to complete the projects within time/budget while building their internal competencies.

Having worked on more than 1000 global SAP sites across various industries, our consultants might have already worked in your organization or industry.

Key Advantages

- On-demand, Flexible & Cost Efficient SAP specific resource organization
- Deployment capabilities across geographies in US, Canada, South America & Asia without increases in travel budgets.
- Deployment of experts in advisory, blue printing, architectural, development, post implementation & QA stages of project lifecycle.
- Domain Expertise in SAP through Industry Vertical & Horizontal solutions
- Cross functional Experience in core SAP with up to date knowledge on new dimension SAP products
- Ability to work within an enterprise's culture, working side by side with large system integrators and client personnel, while staying committed to the client goals.
- Experience of being an integral part of global delivery teams in onsite, near shore and offshore models
- Strong experience of mentoring client teams to increase their in-house SAP competencies
- Redeploy internal key employees on strategic projects
